

Practice Record

You will keep a practice record, and turn it in every month. 90 minutes of practicing *per week* *and* a parent signature every week is required for full credit. Try to space out your practicing as much as possible, and be consistent.

Listening Log

It is a requirement to listen to at least 30 minutes of classical music a week. Since the majority of music you play in class is classical music, you need to know what it sounds like, the different styles, and cultivate your own taste.

Listen to a variety of pieces instead of the same piece over and over. Multiple listening of the same piece will not be accepted.

I highly recommend the following radio station:

91.5 – KUSC

<http://webplaylist.org/cgi-bin/kuscplaylist.cgi>

Also, if you have digital cable, there are several classical music stations there, or you can check youtube.com, or if you bring a blank CD I can lend you music to listen to. If you do an internet search for “streaming classical music” you can also listen online.

(<http://classicalwebcast.com/usa.htm>)

Record the date, composer, and the piece name, and length of piece in the appropriate sections. A parent signature is required at the end of each week. At the end of each week add up the total amount of minutes and skip one line.
